# Energy Efficiency

THE INSIDE ADVANTAGE™

A large-view window and two rear incandescent lights provide an easy viewing system that allows homeowners to see the entire oven cavity while foods cook...without opening the oven door. Every **Whirlpool®** single built-in oven may be installed under the counter for optimal convenience and installation versatility.

Choose a cooktop with front controls for ease of use. Gas flame makes it easy to see when burner is turned on. **Jenn-Air®** offers a variety of gas and electric cooktops with front controls

Refrigerator models that meet ADA requirements feature controls with an accessible forward reach approach (max. 48" high and min. 15" low).

No other manufacturer offers a wider selection of ENERGY STAR® qualified refrigerators.

Users can chill out about accessibility. **Whirlpool®** 10, 14 and 15 cubic foot refrigerators are ADA-compliant with 100% of refrigerator space and a minimum of 50 percent of freezer space available to the user at a maximum of 54" above the floor.
